HOBBIES MOTOR RACE

INSTRUCTIONS HOW TO PLAY THE GAME

For two, three or four players. Use a dice to see the number thrown, and drive the motor car forward along the selected road that number of marks. Each mark counts one forward, the dice being used by each player in turn. Each can select his own route to travel, but all must go to London. A stop must be made at Sheffield, Manchester and Doncaster by turning up the exact throw of the dice to carry to these towns. The same applies to London. The winner must reach Land's End by an exact throw on to 85. The cars are set with their front edge touching the mark on the road. A motor arriving in any of the towns marked is assumed to stop for refreshments and must miss a turn.
